ALBRECHT RITSCHL AND HIS DOCTRINE OF CHRISTIAN PERFECTION

I. RITSCHL THE RATIONALIST

The historical source from which the main streams of Perfectionist doctrine that have invaded modern Protestantism take their origin, is the teaching of John Wesley. But John Wesley did not first introduce Perfectionism into Protestantism, nor can all the Perfectionist tendencies which have shown themselves in Protestantism since his day be traced to him. Such tendencies appear constantly along the courses of two fundamental streams of thought. Wherever Mysticism intrudes, it carries a tendency to Perfectionism with it. On Mystical ground—as for example among the Quakers—a Perfectionism has been developed to which that taught by Wesley shows such similarity, even in details and modes of expression, that a mistaken attempt has been made to discover an immediate genetic connection between them. Wherever again men lapse into an essentially Pelagian mode of thinking concerning the endowments of human nature and the conditions of human action, a Perfectionism similar to that taught by Pelagius himself tends to repeat itself. That is to say, history verifies the correlation of Perfectionism and Libertarianism, and wherever Libertarianism rules the thoughts of men, Perfectionism persistently makes its appearance. It is to this stream of influence that Wesleyan Perfectionism owes its own origin. Its roots are set historically in the Semi-Pelagian Perfectionism of the Dutch Remonstrants, although its rise was not unaffected by influences of a very similar character and ultimate source which came to it through the channels of Anglo-Catholicism. Its particular differentiation is de-

In publishing these admirable texts, the Society for Promoting Christian Knowledge is eminently true to its name and to its purpose. Knowledge is promoted by providing students with the materials for forming their own judgment even better than by seeking to influence their judgment by argument and discussion. Scarcely anything is more to be desired, for example, than such collections of passages as the one that is provided in the first of the little booklets, or than the cheap edition of First Clement which constitutes Text No. 7. The mediaeval texts, also, in Nos. 4-6, will open up interesting realms of knowledge hitherto rather difficult of access.

The introductions are brief, but adequate; the editing is evidently competent; the brief notes are useful; the glossaries of ecclesiastical Latin will help the reader over some of the hard places; and the form of the booklets is both cheap and convenient. Apparently, also, translations are to be provided here and there, as in No. 5. The widest possible extension of the series both in content and in circulation is earnestly to be desired.
