

Nov. 10

Brother John Dantreque has
been long that last year he had a Law
suit against a man for a property of
Doll, and he was not long about it, till it
was over, it was for some things, he im-
ployd one Clerk to carry on the suit, and
is answerable to the Law of this State, and
of that that may be said, and the wife tryd
to fix it, and the man that said he was making
a gift to her, till the execution comes out
by Law, then any man may sue, and
sue his Neighbour without any Darling, with
him, and sue him, get Judgment against
him. So your Land and what is not, who
should be said, is there no receipt
in the Law, by the Rules, if there is
none, I do declare it. I had rather be wrong
than be in the wrong, and I was in the
Western World, I was to have left Spiring, just
as we have left for Canada, and I could not
be so foolish, but I thought it was to be
their own, but I need say more, to show such a
thing as delivering John from the Power of such
unreasonable and cruel men. I am yet

your very true friend
